(Annex-III)

Rule 4(2)(C):

"Any person may before his death, in writing duly signed and verified by the respective Evaluation Committee, donate any of his organ or tissue for transplantation. Where no such declaration was made but the person has been declared brain dead, either of the surviving spouse or parent or adult child of such person may authorize the removal of any organ for transplantation in any medical institution or hospital duly recognized by the Monitoring Authority. The cases of unclaimed brain dead hospitalized patients shall be presented to an Evaluation Committee for transplantation after an intense search for their relatives within twenty four hours."
